

CHIOMA IWEBUNA

Port Harcourt, Rivers State, Nigeria • 08038215865 • chiomaiwegbuna@gmail.com

PROFESSIONAL SUMMARY

Software Engineering graduate with hands on experience developing web applications using JavaScript, React, Next.js, Django, Django REST Framework, PostgreSQL, and Firebase. Experience includes front end development, software testing, requirements analysis, system design, database design, and technical documentation. Developed academic software projects and gained practical IT experience through undergraduate placements with Woku Zolutions and TotalEnergies.

EDUCATION

Babcock University, Ilishan Remo, Ogun State, Nigeria

BSc (Hons), Software Engineering, Second Class Upper Division
2022 – 2026

Hallel College, Port Harcourt, Rivers State, Nigeria

WASSCE

TECHNICAL SKILLS

Frontend: React.js, Next.js, JavaScript (ES6+), HTML, CSS, TAILWIND CSS, Responsive Web Design.

Backend and Database: Firebase, Firebase Authentication, Firestore, Firebase Realtime Database.

Software Engineering: Software Testing, Debugging, System Analysis, Requirements Engineering, SDLC, Database Design, Technical Documentation, SRS, Use Case Modeling.

Tools: Git, GitHub, VS Code.

EXPERIENCE

Woku Zolutions, Port Harcourt, Rivers State

Undergraduate Intern |2025

- Worked as a front-end developer during undergraduate training, contributing to assigned web development tasks and applying front end development skills in a practical work environment.

TotalEnergies E&P Nigeria Port Harcourt, Rivers State

Undergraduate Intern |March 2025 – June 2025

- Gained practical experience within the Information Systems and Technology department across software development, IT infrastructure, networking, and printer support.
- Completed technical training in React and Next.js with the software development team and developed a Computer Based Testing website for presentation.
- Gained exposure to server infrastructure and the general IT environment within the organisation.
- Assisted with network and printer support, including troubleshooting printer issues and providing support at site locations.

PROJECT

Computer-Based Testing (CBT) System | Software Developer | 2025

- Developed a web based CBT system using React, Next.js, and Firebase/Firestore.
- Built functionality for managing subjects, questions, test sessions, and automated scoring.
- Implemented role based access and structured Firestore data for the application.
- Tested and debugged application features to identify and resolve issues.

Optimized Inventory Management System for SMEs | Team Lead & Lead Developer | 2026

- Led the development team through requirements gathering, system analysis, development, testing, documentation, and project coordination.
- Produced the Software Requirements Specification, use cases, and system design documentation.
- Worked on the system architecture and database structure for inventory tracking and reporting.
- Developed system features using Next.js, React, Tailwind CSS, Axios, Django, Django REST Framework, PostgreSQL, Celery, and Redis.
